FIFA is a global video game franchise that's defined the soccer (or football, as it's often called in North America) genre for over 30 years. The FIFA franchise has set the standard for football gaming through action, innovation, and sports gameplay fidelity. FIFA is also more than just a game. It's a philosophy. Whether it's Live Your Dreams, Power of Decision, Take Your Chance, or Believe in Moments, FIFA inspires gamers to fight for their beliefs and to be inspired by their experiences. What is Pro Evolution Soccer? Pro Evolution Soccer (PES) is a soccer simulation video game franchise. It was developed and published by Konami for the Sony PlayStation 2 and PlayStation Portable game consoles and the PlayStation 3 game console. Most titles in the series feature the likeness and teams of their real-world counterparts, although a few titles, such as PES 2008 and PES 2011, feature accurate rules and physics, as well as a stylized look with more imagination than realism. PES has been known as one of the best soccer games on any platform, which makes FIFA 22 a fitting upgrade for this generation of gamers. How does it compare to FIFA 20? The phrase "FIFA officially re-introduces the Master League from previous games" is not accurate. In the Master League, teams of human players could attend matches between other real-world clubs, and a system called ranking points granted to the winners determined which club earned the title of "Real Madrid" or "Manchester United." Real Madrid in FIFA 20 returns to the netherworld from which it rose following the Spanish Civil War — a decade of darkness that has not left it. To the unversed, the Master League of the past refers to a not-so-pleasant time in the history of soccer. It was once a balanced battleground between clubs like Manchester United, Tottenham Hotspur, Liverpool, and others, and FIFA's community offered players the chance to play these historic matches in the Master League. Instead of these club matches, FIFA 22's Master League is a historic simulation mode from which teams and players form a league. Players and staff can choose the matchups they want to play in a league with their favorite club and historical players, and create their own histories. Is it different than the Master League in FIFA 21
