BoyBot [Win/Mac]

[More about our description and what's inside... check the description] We're stuck in the future, it's the year 2028. But as history says, it was only the start of something great. We were trying to save the world. Some time after the global government collapsed, we changed our minds and decided that we could just try to change it. We started to make our own country. It's been almost a decade now. We're still a small and humble nation, but now we can start to live our lives, create our society. We have a robot you can talk to, his name is BoyBot. He is just a cute little kid you can talk to. He can play a bit of a game too, make something else talk back to you. Back then, his predecessor was called "JanitorBot". He was about a size of a 10 year old child. A very passive robot for cleaning. Now BoyBot is a fully grown adult, with all the depth we can provide, he is not only a friend to help you get through a day, but a valuable friend for your leisure. Changelog: 1.3.1 - Fixed a bug that caused the game to not stop when loading. - Fixed an issue in which the web browser was using the old OA's styles. - Broader category description in the Play Store. 1.3.0 - Fixed an issue with the server where the data would be corrupted and it wouldn't finish. - Fixed an issue that was making our prices hard to display in the Play Store. 1.2.1 - Replaced the old server with a new one to reduce server load. - Removed the option to delete the player's data. 1.2.0 - New data engine to reduce server load. - Fixed the random costume issues. - Fixed an issue where the costume would be wrong. - Now you can make a new character with your own hairstyle. - Fixed the situation that the bot would not listen to some actions. 1.1.2 - Fixed the situations where you could be connected to a network without an internet connection. 1.1.1 - Improved timing of the subtitles - Fixed an issue where the audio would start playing before the character was fully loaded - Fixed an issue with the design of the small text boxes - Fixed an issue with the buttons not being visible

Setting up a new database server is a complex and time consuming task. And if you need to change the database from Microsoft Access to MySQL, the task is even more challenging. To overcome this problem, we have to use a special tool which allows the conversion of Microsoft Access to MySQL. MySQL to Access Converter by A2 iSoftsoft is one of such tools. It helps the users to convert Microsoft Access to MySQL databases. This tool will convert all the tables, forms, views, queries of the database and allow the users to modify them. This tool runs on Windows and supports
